PRACTICE 13

Circle the code words. Cross out extra information. Work the problem.

1. Mindy took her car to have a tune-up. The cost was \$14.95 because they were having a special sale. The regular cost is \$19.95. How much less did Mindy pay?

2. A filling at the dentist costs \$36. With insurance, the cost is \$17 less. How much does it cost with insurance?

3. Pokey won 2 more blue ribbons at the dog show on Saturday. He won 15 blue ribbons at other shows and 11 red ribbons. How many blue ribbons does Pokey have now?

4. Denzel needs 4 new spark plugs. Spark plugs cost \$1.50 apiece. He also needs 2 filters. How much will the spark plugs cost him?

5. Paco has 18 toy trucks. He put 3 away in his toy box. How many are left out?

6. Xavier paid his bills by mail. He paid 1 electric bill, 1 gas bill, 1 telephone bill, and made 2 car payments yesterday afternoon. How many total bills did he pay?

7. Beverly ate 3 bags of potato chips. Every bag had 400 calories in it. How many calories did she get?

8. Jordan went to the Rockford County Fair. Every ticket cost 30 cents. She gave 9 tickets for a BBQ sandwich. How much did she pay for the sandwich?

9. The camp has 3 trails. Red Trail is 2 miles long. Angel's Trail is 5 miles long, and Oak Trail is 3 miles. How many miles of trail in camp?

10. Guy got a 3 pack roll of film. Each roll has 36 shots. How many shots in the 3 pack?
