

Homework Practice*Improper Fractions***Write each improper fraction as a mixed number.**

1. $\frac{11}{6}$ _____

2. $\frac{13}{4}$ _____

3. $\frac{41}{7}$ _____

4. $\frac{19}{4}$ _____

5. $\frac{5}{2}$ _____

6. $\frac{38}{5}$ _____

7. $\frac{9}{2}$ _____

8. $\frac{14}{3}$ _____

9. $\frac{39}{8}$ _____

10. $\frac{25}{6}$ _____

11. $\frac{22}{5}$ _____

12. $\frac{17}{4}$ _____

13. $\frac{80}{9}$ _____

14. $\frac{13}{10}$ _____

15. $\frac{67}{7}$ _____

16. $\frac{71}{8}$ _____

17. $\frac{8}{3}$ _____

18. $\frac{14}{5}$ _____

19. $\frac{28}{3}$ _____

20. $\frac{61}{7}$ _____

21. $\frac{13}{6}$ _____

Spiral Review**Represent each situation using a fraction. Then solve. (Lesson 8-1)**

22. Eight people equally share 3 pizzas. How much pizza does each person receive?

23. In art class, there are 5 sheets of drawing paper for 9 people. How much paper will each person receive?

24. Five gallons of punch fill 3 punch bowls equally. How much punch will be in each punch bowl?
