

WEBSITE

A week before we begin the unit, we will visit the Popp's Ferry Elementary Website where I've posted a web page that explains the project. The web page includes the grading criteria and checklists you should use for your project. You may also access the web page at home by visiting our school web site. Click on the "All About Me" link on the first page.

POWERPOINT

"ALL ABOUT ME" SLIDE SHOW

Grades 4th-6th

WHAT IS THE ASSIGNMENT?

First, using Publisher, you will create a flyer that advertises your slide show.

Then, you will create a 4-6 (or more) slide show using PowerPoint to tell about yourself. The purpose of this lesson is to become familiar and comfortable with using PowerPoint. You will use the "tips" sheet I provide before asking the teacher a question.

Information about yourself you may want to include: hobbies, family, favorite subjects, foods you like/dislike, pets, trips, etc. Think of interesting details about yourself that your classmates may not know about you!

WHAT SHOULD MY POWERPOINT INCLUDE?

- ⇒ Title/name on first slide.
- ⇒ A background color or slide design.
- ⇒ Graphics, text boxes and Word Art.
- ⇒ Interesting information about yourself such as hobbies, family, etc.
- ⇒ Correct spelling/punctuation.
- ⇒ Sounds and animations.
- ⇒ Contains at least 4-6 (or more) slides.
- ⇒ Contains slide transitions.
- ⇒ The presentation was interesting and entertaining.

WHEN IS IT DUE?

We will work on our projects for the next 4-6 weeks until everyone is finished. After I've checked it, you will print in color/handout style. Then, I will show your slide show on the SMART board during class.

I will assign you a software program to use when finished.
