

“Knowing I can call a nurse any time with my questions makes me feel better.”

Call the Nurse Line 24/7

If you have health questions or concerns, any time, day or night, you can call the Nurse Line. It's included with your medical plan, and there's never any cost to you.

- Need information about a medication, test or medical procedure?
- Want reliable information about a health condition?
- Aren't sure what questions you should ask your doctor?
- Have questions about how you or your family can stay healthy?

The 24-hour Nurse Line is not a substitute for medical attention. If you have an emergency medical condition, please call 911 or your local emergency medical services number.

Nurse Line helps me with questions such as:

- *“My doctor told me I need a biopsy. Can you tell me more about what to expect?”*
- *“My mother had high blood pressure. Does it run in the family? How would I know if I have it?”*
- *“My father was just prescribed a new medication and now he's feeling dizzy. Could that be a side effect?”*
