

Ways To Prepare For Returning to School

Practice Hand Hygiene

Teach them to sing their ABC's or have them count for at least 20 seconds ensuring they wash front, back & in-between their fingers.

Make or Purchase Extra Masks

Your school will provide a mask and individuals may also choose to wear their own personal mask. If possible, consider making or buying multiple masks to give you proper time to wash them between use.

Practice Wearing a Mask

Your child will be required to wear a mask at school and while on the bus. In situations where social distancing can be achieved (6 ft. or more), mask will be allowed to be removed. Teach your child not to touch the inside of their mask when taking it off/on.

Purchase Reusable Water Bottle

Water fountains will not be in service during school. However, water stations will be available to refill water bottles.

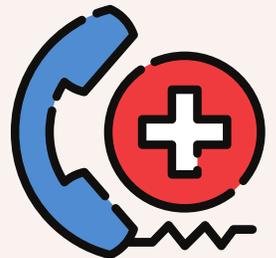

Practice 6 feet of distance

Measure the distance on the floor. Consider temporarily laying pieces of paper down for a visual.

Verify/Update Emergency Contacts

If your child presents with COVID-like symptoms, they will be placed in an isolation room and will need to be picked up immediately. Please ensure a contact can be reached at any given time.

Purchase a Thermometer

Students sent home with fever will have to stay at home until one of the three criteria are met:
1. Note from a health care provider stating they may return to school because fever is unrelated to COVID OR
2. A negative COVID test OR
3. Remain at home on quarantine for 14 days, may return after 14 days if fever free for 24 without the use of fever reducing medication.

Stay Informed

Educate yourself from reliable sources such as CDC, MS Department of Health and Biloxi Schools.
